### **DETAILED ACTION**

Claims Claims 1, 4-8, 295-300 are pending.

Claims 2, 3, and 9-12 have been canceled.

Claims 13-294 have been withdrawn.

The rejection of claim 1 under 35 USC 112 still stands. Applicants still have the claim language first protecting group and second protecting group. Applicants just have a few examples as given on page 22. Applicants have mentioned "protective groups" by Theodora green but have not incorporated by reference.

Also it is unclear what the weak leaving group is.

The rejection of claims 1-8 over 35 USC 112 for being indefinite for the definition of R5 has been withdrawn since applicants have amended the claims.

The rejection of claims 1-12 under 35 USC 112 first para has also been withdrawn since applicants have amended the claims.

The rejection of claims 1 under 35 USC 102 over Valli Matthew et al has been withdrawn since applicants have amended the R6 to be a carboxylic acid only. The prior art discloses the ester.

The rejection of claims 1-12 under 35 USC 103 over Valli et al however still stands. The reference teaches the interchangeability of the acid and the ester group and hence the obviousness rejection still stands.

#### **New Rejection**

The following is a quotation of the first paragraph of 35 U.S.C. 112:

Art Unit: 1625

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 295-300 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In re Wands, 858 F.2d 731, 737, 8 USPQ2d 1400, 1404 (Fed. Cir. 1988).

The different groups disclosed in the claims were not originally presented in the specification and hence constitute new matter situations.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
